[2015, 2020] **University of Toronto, St. George.**
Honours Bachelor of Science (*w/ distinction*)
Computer Science Major, Math

02/2023 **Software Engineer (L4), Google,** *New York, NY.*
[07/2020, **Software Engineer I → II, Oscar,** *New York, NY.*
02/2023] • Migrated parts of the payments platform from a single-tenant to multi-tenant design with company-specific branding and logic as part of a SAAS initiative. This helped facilitate the onboarding of external partner Health First's 16,000+ membership onto internal systems.
• Added support for external broker payments as part of a joint venture with Cigna supporting remittance of \$1mill+ in commissions. Designed, analyzed and implemented email infrastructure to support co-branding and modified core commissions computation logic to distinguish between internal and external business.
• Designed and developed an automated invoice generator for Medicare broker commissions replacing a manual operations driven process. Created a view on a web portal so that brokers could download said invoices and check statuses of their commissions.
Python, Go, SQLAlchemy, GRPC, Postgres, Kafka, Mesos+Aurora, Kubernetes, Javascript/React
[01/2019, **Software Engineer Intern, Flexport,** *San Francisco, CA.*
06/2019] • Implemented a feature enabling support for trucking insurance (covering >\$1m. in financial risk).
• Key contributor to a service that fetched marketplace information and automatically generated invoices for clients.
Ruby/Rails/React
[05/2018, **Software Engineer Intern, Amazon,** *Toronto, ON.*
08/2018] • Created a filtering process that removed unnecessary service data for the goal of reducing disk I/O activity which resulted in a 70% improvement in processing latency and savings of \$30,000 monthly.
• Added multithreading to a key service reducing latency by 10% to help adhere to an SLA.
Java

Python, Java, Ruby, C, C#, Javascript | AWS, React, GraphQL

- Code Nation (virtual instructor for students at underresourced highschools)
- Black Students Association
- African Students Union
- UofT Volunteer Notetaker for Accessibility Services
